**Decal Mounting Instructions**

You have two options for the display of your permit. You must use one of these two options listed below. Failure to do so may result in the issuance of a parking citation for improper permit display.

- **Option #1:** If you are going to use a plastic hang tag, please affix the permit decal to the plastic hang tag. Hang the tag from your rearview mirror so that the permit faces outward and is clearly visible and readable through the windshield of your car while parked on campus.

**Notice:** Some new cars are equipped with antilacerative (Sucroflex) windshields which may be damaged by windshield-mounted decals. If your car is equipped with such a windshield, mounting platforms which are placed between the windshield and the decal are available upon request.

**Parking Lot Access:**

Hold your Gate Access Card up to the gray reader faceplate located at the entrance to the lot or structure. Gate will open automatically. **DO NOT insert into Daily/Visitor ticket reader.**

**Your Gate Access Card has a lifetime usage and should be retained if you are re-applying for any future permits.**
